HELMETS, CAPS, MASKS AND HEAD PROTECTION

HELMET COVER FOR REGULAR CUT MODEL WITH FIXED PICATINNY RAILS

Every detail in the field counts. Even those that seem invisible.

The helmet cover is designed for operators who take care of their equipment down to the last detail.

The Ripstop polycotton fabric combines the strength of polyester with the comfort of cotton, ensuring tear resistance, silence and breathability even during prolonged use.

It reduces glare and wear on the helmet, improving camouflage and maintaining a clean and effective operational profile.

It is a simple but essential item: it protects, camouflages and lasts over time.

Because reliability is also built on surfaces that must not betray your position.
