BOOTS AND SHOES

GARMONT - CONTACT 6 WP BLACK

CODE: GR-003175

BRAND: GARMONT

Construction and performance

CONTACT 6 ZIP WP is a waterproof 6” duty boot designed to provide agility, stability, and all-weather protection. Developed for law enforcement professionals, it combines a functional construction with features designed for extended professional use.

Double Closure system

The closure system combines traditional lacing with a practical inner-side zipper reinforced by a secure Velcro® strap, allowing the boot to be put on and removed quickly and easily.

G-DRY waterproof protection

The G-DRY membrane creates a windproof barrier and provides up to 10,000 mm of waterproof protection, helping to keep feet dry even in demanding weather conditions.

Upper and comfort

The breathable polyester upper with seamless TPU elements promotes ventilation and comfort during extended wear. The mono-density EVA midsole contributes to cushioning and shock absorption.

Vibram® TACTOOR outsole

The Vibram® TACTOOR outsole with TRACTION LUG technology enhances grip across different types of terrain, providing stability and control while moving. The a.d.d.® ergonomic design supports natural foot movement and contributes to improved shock absorption.

Certifications and performance

CONTACT 6 ZIP WP is certified according to UNI EN ISO 20347:2024 and compliant with ASTM F2913-24. The model meets O6, A, E, FO, SR, WR, and WPA requirements for slip resistance, antistatic properties, and water protection, including on wet or oily surfaces.

Recommended use

A dependable and agile solution for demanding operational environments where weather protection, stability, and ease of use are required.
