VIKING DUFFLE BAG 70 LT

CODE: D5-5520

BRAND: DEFCON 5 - NEWS 2025

Crafted from **high-resistance PVC**, this Duffel Bag is built to withstand demanding environments and operational use, making it the ideal companion for travel, outdoor activities and tactical deployments. Its classic **tubular design** with a wide top opening ensures fast and easy access to all gear.

Inside, a **mesh pocket under the flap** and a **front exterior pocket** help keep equipment organized and ready. Compared to the **55-liter model**, this version includes a **dedicated shoe compartment** and an **additional pocket** for enhanced load management.

Designed for **maximum carry versatility**, it can be transported in multiple ways:

- **As a duffel**, using the two side handles or the **adjustable padded shoulder strap**.
- **As a backpack**, using the **padded, adjustable and removable shoulder straps**, stored in a hook-and-loop pocket above the flap.

The **D-shaped opening** provides full visibility of the interior, while the **four compression straps** keep the load tight and stable even during movement.

COLOR: BLACK , GREY MELANGE
