MADE IN ITALY CLOTHING

EXTREME-STRETCH JACKET WITH KEVLAR INSERT

CODE: D5-BR2479

BRAND: DEFCON 5 2024/2025

The **multifunctional jacket** is designed to offer an ideal combination of comfort, durability, and practicality in any situation. Made from bistretch polyamide fabric, it adapts perfectly to the body's movements, ensuring a comfortable fit and excellent freedom of motion.

Main features:

- **Bistretch fabric** - The elasticated polyamide fabric follows body movements both horizontally and vertically, providing an excellent fit and superior comfort during use.
- **Hidden hood** - An innovative zip opening on the side of the collar allows you to quickly extract an emergency hood, perfect for sudden weather changes.
- **Multiple pockets** - The jacket features several functional pockets: two zipped arm pockets and two zipped lower front pockets, offering increased practicality and storage capacity.
- **Kevlar reinforcements** - Forearms and shoulders are reinforced with Kevlar, a highly abrasion-resistant material that enhances the jacket's durability in high-wear areas.
- **Reinforced stitching** - Triple-needle stitching with cover seam and polyester thread in matching colour ensures superior strength and long-lasting durability.
- **Adjustable cuffs** - Elastic cuffs with a terminal loop allow for a secure and snug fit.

Material:

- 90% polyester
- 7% elastane
- 3% aramid (Kevlar)

Versatility and durability

This jacket is ideal for those who need a resistant and functional garment, perfect for outdoor activities or work environments requiring extra protection. Its practical design, multiple pockets, and Kevlar reinforcements make it an excellent choice for anyone seeking a jacket that can withstand time and demanding conditions.
