JACKETS

D.FIVE - "AVIATOR" JACKET

CODE: DF5-590

Design and versatility

The bomber jacket was originally developed for pilots and later became part of casual civilian clothing. This version combines a modern, versatile design with functional details, making it easy to pair with different outfits.

Materials and construction

Made from **honeycomb-textured polyester**, it features **softshell inserts** that contribute to a smart and contemporary look. The **water-repellent treatment** provides additional protection against surface moisture.

Contrasting inner lining

The **contrasting orange inner colour** adds a distinctive and contemporary element to the jacket, giving it a youthful and dynamic character.

Pockets and functionality

The bomber features **four zippered pockets**, including two external and two internal pockets. The internal side pockets also feature zip closures to keep stored items secure.

Fit and portability

Elasticated cuffs and waistband help define the fit of the jacket. It is supplied with a **compression sack**, making it easy to carry and allowing it to be conveniently packed in a suitcase.

Technical features

- **Fabric:** 140 g/m² CVC fleece
- **Composition:** 100% polyester
- **Fit:** Slim Fit
- **Treatment:** water-repellent
