TACTICAL BOOTS

T 4 TOUR GTX REGULAR COYOTE

CODE: GR-002441

BRAND: GARMONT

The T4 Tour GTX® is a waterproof mid-cut boot designed to offer stability, comfort, and protection in outdoor and light-duty environments.

The GORE-TEX® Performance Comfort membrane ensures waterproofing and consistent breathability, keeping your feet dry even in persistent rain and humidity.

The Vibram® outsole provides reliable traction on mixed terrain—rocky, dirt, wooded—while the cushioned midsole absorbs impact during extended marches or dynamic activities.

The mid-cut construction supports the ankle without restricting mobility, making it ideal for:

- Patrolling in natural environments
- Tactical outdoor activities
- Approach and light training
- Prolonged use on variable terrain

The T4 Tour GTX® represents the balance between advanced trekking comfort and structural reliability for light operational use.
