TACTICAL ACCESSORIES

HIGHLANDER - INFLATABLE SLEEPING MAT

CODE: HL-AIR071 OD

BRAND: HIGHLANDER

The NAP-PAK inflatable sleeping mat is designed to provide insulation, comfort, and optimal recovery in outdoor and operational environments. It reduces heat loss between the body and the ground, improving sleep quality even in harsh conditions.

Thermal insulation and operational comfort
Its structure minimizes heat transfer to the ground, helping maintain stable body temperature during rest.

Air chamber construction
Internal air chambers distribute pressure evenly across the surface, ensuring consistent comfort and support.

Ultralight technical materials
Made from Ripstop nylon, it combines strength, durability, and extremely low weight (415 g) without compromising performance.

Compact and easy to carry
Low-volume, compressible design ideal for field gear and mobile operations.

Reliable, lightweight, and functional, it is built to ensure effective recovery even in demanding environments.

Weight: 415 grams

WEIGHT (KG): 0.41

DIMENSIONS:

LENGTH (CM): 19
WIDTH (CM): 0
HEIGHT (CM): 5
