## TACTICAL ACCESSORIES

### FOLDING STRETCHER 3 FOLD CAMIL

**CODE: R-S-FS-STF-02**

**BRAND: DEFCON 5 - 2026**

Engineered to meet the demands of high-risk environments, this stretcher is an essential asset for emergency medical services, military operations, and civilian rescue missions. Built for rapid deployment and compact storage, it ensures dependable performance in critical scenarios where reliability is non-negotiable.

Its industrial-strength construction, made from lightweight anodized aluminum, delivers exceptional durability while maintaining ease of transport. The foldable design, both lengthwise and crosswise, allows for efficient storage and quick handling, making it an ideal solution for ambulances and emergency vehicles.

Designed with operator safety and patient stability in mind, the stretcher features non-slip ergonomic handgrips that provide a secure hold even under pressure. Reinforced spreader bars and sturdy legs enhance structural stability, ensuring safe and controlled transport in demanding conditions.

Ease of maintenance guarantees operational readiness at all times, while the optional carrying bag adds convenience for transport and storage, supporting efficient deployment in the field.

Weight: 1000 grams
