EYEWEAR AND GOGGLES

WILEY X - ALPINE MATTE BLACK AND TAN FRAME WITH CAPTIVATE™ POLARIZED TUNGSTEN MIRROR LENSES

CODE: WY-ACALP04

BRAND: WILEY X

The WX Alpine is engineered to dominate the harshest environments, delivering ballistic-grade protection, locked-in stability, and crystal-clear vision under extreme operational stress.

Aggressive and ultra-durable construction

Low-profile polymer frame combines lightweight comfort with exceptional durability, built to withstand impact, pressure, and relentless use.

Maximum stability under movement

Semi-hooked temples and hydrophilic rubber nose pads and temple tips increase grip as moisture and sweat build, keeping the frame secure during high-intensity activity.

Advanced anti-fog airflow system

Integrated Venturi Suction technology actively channels airflow through the frame, reducing fogging and maintaining clear vision.

High-performance ballistic lenses

2.5 mm shatterproof Selenite™ lenses certified to MIL-PRF-32432A ballistic standards, providing:

- superior impact resistance
- protection against debris and scratches
- full UV protection

CAPTIVATE™ Polarized Tungsten Mirror lenses

CAPTIVATE™ polarized technology enhances contrast and color perception while reducing glare from reflective surfaces.

Optimized for:

- bright sunlight and shifting light conditions
- outdoor daytime activity
- tactical and operational driving
- water environments with high glare
- demanding outdoor performance

Key features

- Rubber nose pads and temple tips
- Venturi anti-fog system
- Scratch-resistant lenses
- Full UV protection
- Military-grade ballistic resistance

Prescription compatible

Can be fitted with prescription lenses through authorized optical partners.

WX Alpine delivers control, protection, and uncompromising performance in every mission.

Weight: 70 grams

WEIGHT (KG): 0.07
