EYEWEAR AND GOGGLES

WILEY X - SPEAR DUAL 3 LENSES (SMOKE GREY+CLEAR+LIGHT RUST) WITH TAN FRAME

CODE: WY-SP293DLT

BRAND: WILEY X

Designed to perform in the most demanding operational environments, this **Wiley X ballistic goggle** combines advanced protection, clear vision, and secure stability. Developed in collaboration with several special forces, it is engineered to perform reliably in **humidity, heat, wind, dust, and changing environmental conditions**.

The **low-profile light brown frame** features a removable **Facial Cavity™ seal**, designed to reduce reflected glare and help keep wind, dust, and debris away from the eye area.

WX Dual Lens System

The innovative **WX Dual Lens system** uses a two-layer lens construction that thermally separates the air inside and outside the lens, dramatically reducing the risk of fogging and maintaining **clear vision during intense activity and in challenging environmental conditions**.

The system is complemented by the **Foil™ anti-fog lens coating**.

3-Lens Kit

The goggle comes with a **three-lens interchangeable kit**, allowing rapid adaptation to changing light conditions.

Smoke Grey Lens

- Absorbs all colors evenly for natural color perception
- Ideal for bright light conditions
- Maximum glare reduction
- Shatterproof polycarbonate
- Scratch-resistant coating
- 100% UVA/UVB protection

Light Rust Lens

- Filters most blue light, a major contributor to glare and haze
- Enhances contrast in medium-to-low light conditions
- Shatterproof polycarbonate
- Scratch-resistant coating
- 100% UVA/UVB protection

Clear Lens

- Maximum light transmission
- Ideal for fog, overcast conditions, dawn, and dusk
- Shatterproof polycarbonate
- Scratch-resistant coating
- 100% UVA/UVB protection

Tactical Stability and Compatibility

The tactical strap features the **Tri-Glide™ system** for precise length adjustment, together with quick-release connections.

Compatibility with the **Wiley X ARC Rail Attachment System (RAS)** provides a secure and stable fit on tactical helmets, preventing unwanted movement during dynamic activities.

The design is also **NVG compatible**.

Certified Protection

The shatterproof **Selenite™ polycarbonate lenses** meet the following standards:

- **MIL-PRF-32432 (GL)**
- **ANSI Z87.1-2010** – high velocity and high mass impact
- **EN 166 B** – protection against high-speed particles
- **OSHA 1910.133 (b)(1)(i)**
- **100% UVA/UVB protection**

The **T-Shell™ coating** provides enhanced scratch resistance in demanding environments.

RX Ready

The goggle is **RX Ready** and compatible with the **Wiley X Spear (SP29X)** prescription lens insert.

Key features

- Low-profile light brown frame
- **WX Dual Lens system**
- 3 interchangeable lenses: Smoke Grey, Light Rust, and Clear
- Shatterproof Selenite™ polycarbonate lenses
- T-Shell™ scratch-resistant coating
- Foil™ anti-fog coating
- Removable Facial Cavity™ seal
- Adjustable Tri-Glide™ strap
- Quick-release connections
- ARC Rail Attachment System (RAS) compatible
- NVG compatible
- RX Ready with Wiley X Spear (SP29X)
- 100% UVA/UVB protection

Built for users operating in environments where **protection, visibility, and stability cannot be compromised**.

Weight: 250 grams

WEIGHT (KG): 0.25
